## 2011-2012 Catalog

**Harnesses**  
**Collars**  
**Packs**  
**Ganglines**  
**Leads**  
**Books**  
**And More!**

## HARNESSES X-BACK

This harness is designed for speed and reliable comfort. The X-back design keeps the harness in place, controls vertical motion, but doesn't restrict the dog's gait. The "Sliding X" on top allows the harness to compensate for different dogs, and for the off-center pull of standard gangline hitches. **EXTENDED PADDING and REFLECTIVE TAPE ARE AVAILABLE UNDER OPTIONS.**

Ch R'Treks Gone in Sixty Seconds (Flash). Alaskan Malamute

XN (super plush), XF (polar fleece), XP (neoprene), XR (ripstop/closed cell foam) .....\$20.00  
XS (sheepskin) **Custom-Not Returnable** .....\$27.00

### SPLIT CHEST VARIATION (SP)

Instead of a straight breastplate, the webbing on the breastplate of this harness is divided. This helps eliminate slipping on dogs with protruding breastbones. Watch that this harness does not chafe under the forelegs because the breastplate is wider. Add (SP) to the X designations above, (i.e. SPXN) . Prices on SP harnesses are the same as the X-back.

### Standard sizes for X-Back and Split Chest Harnesses

18" neck x 26" tail 19" neck x 26" tail 20" neck x 27" tail 21" neck x 27" tail 22" neck x 28" tail 23" neck x 29" tail  
24" neck x 29" tail 26" neck x 32" tail 28" neck x 33" tail 30" neck x 34" tail 32" neck x 35" tail

**Standard sizes for X-Back and Split Chest Harnesses may be returned for exchange or credit.**

**CUSTOM SIZES and HARNESSES WITH OPTIONS ARE NOT RETURNABLE!!! MAKE SURE YOUR MEASUREMENTS ARE CORRECT!!!**

ALL HARNESSES ON THIS PAGE ARE MADE IN WASHINGTON, U. S. A.

# HARNESSES RECREATION

We recommend this harness for larger dogs, such as Malamutes; for dogs short in the back, such as Elkhounds; and for dogs that are wide across the back, such as Newfoundlands. The Recreation Harness may be used under a pack. **EXTENDED PADDING and REFLECTIVE TAPE AVAILABLE UNDER OPTIONS.**

RN (super plush), RF (polar fleece), RP (neoprene), RR (ripstop/closed cell foam) ..... \$18.00  
 RS (sheepskin) **Custom-Not Returnable** ..... \$25.00

Standard sizes for Recreation Harness

18" neck x 26" tail 19" neck x 26" tail 20" neck x 28" tail 21" neck x 28" tail 22" neck x 29" tail 23" neck x 29" tail  
 24" neck x 30" tail 26" neck x 31" tail 28" neck x 32" tail 30" neck x 34" tail 32" neck x 35" tail Standard sizes for

Recreation Harnesses may be returned for exchange or credit. **CUSTOM SIZES and HARNESSES WITH OPTIONS ARE NOT RETURNABLE!!! MAKE SURE YOUR MEASUREMENTS ARE CORRECT!!!**

## ADJUSTABLE SLEDDING HARNESS—TO BE USED FOR TRAINING - NOT FOR HEAVY LOADS

AP Puppy Harness ..... \$18.00  
 Recreation style, made with 3/4" web, unpadded with buckles to adjust neck and length. Fits most puppies up to 60#

AAR Adjustable Adult ..... \$27.00  
 Recreation style, made with 1" web, partial neoprene padding with buckles to adjust neck and length  
 Medium 60# - 90# Large 90# - 125# XLarge 125# - 160# XX Large 160# - 200#

## MUSHING / SKIJORING

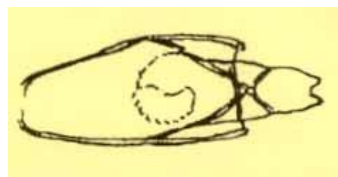

Very similar to our fitted tracking harness. This harness allows a "center of the back" point of attachment that some mushers and skijorers prefer. This has the same fitted neck and breastplate as our X-back and Recreations Harnesses with a d-ring sewn to the top of the neck and a d-ring (padded with neoprene) sewn near the center of the dog's back. It has a floating cinch which uses a single side release snap (padded with neoprene) to close. This center of the back design frees up a dog's rear and may help dogs that have a tendency to sidewind going down the trail. This harness may also work well for the escape artist on the team since it has a cinch. It may require a longer tugline when used with a gangline section.

SKJN (super plush), SKJF (polar fleece), SKJP (neoprene), SKJR (ripstop/closed cell foam) ..... \$24.00  
 SKJS (sheepskin) **Custom-Not Returnable** ..... \$31.00

## SHORT BODIED SLEDDING / PULK

Back by popular demand. This harness has a fitted neck and breastplate just like our X-back and Recreation Harnesses. In addition, it has a cinch to support the shafts on a pulk and an attachment point on each side to clip to the shafts. The harness comes with rope ties on each side but metal d-rings may be substituted by request. This harness may be used as a short bodied sledding harness by clipping your tugline to the rope tie on one side of the harness. **D-rings by request.**

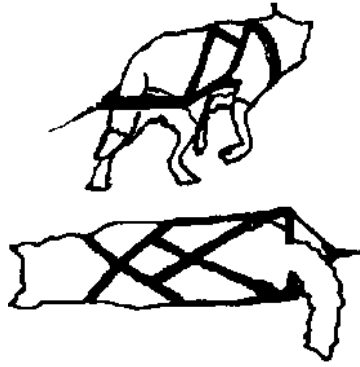

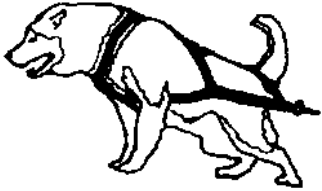

PN (super plush), PF (polar fleece), PP (neoprene), PR (ripstop/closed cell foam) ..... \$24.00  
 PS (sheepskin) **Custom-Not Returnable** ..... \$31.00

Standard sizes for the P and SKJ designated harnesses are in 2" increments from 18" to 32". **In between sizes and sizes below 18 or over 32 are custom and may not be returned**

**BELLY BAND WITH ADJUSTMENT** ..... \$4.00  
 1" harness weight webbing with side release plastic snap. May wrap all the way around dog or may use just under the belly by feeding through harness. Adjustable to fit most dogs. Designed to keep dogs from backing out of the harness. Available in all harness colors. Maximum length approximately 36" (longer length by request).

# HARNESSES

## Freight/Weight Pull or Wheel Dog Harness

This traditional singletree harness is used for weight pulling, sledding, and heavy-duty hauling. Frequently, it is used in wheel position (near the sled) because the low-draft hitch is more level with the gangline.

*This harness comes with a hardwood spreader kit. The spreader bar should be slightly wider than the rear of the dog. You may cut the bar if needed. The spreader bar should be touching the rear of the dog when the harness is in a relaxed position. Put the screws provided through the fabric and into the pre-drilled spreader bar.*

The height of the hitch is adjustable, so the load is always held in place for maximum pull. The hitch ring uses limited side slip to compensate for off-center loads, and the backstraps feature the same “sliding X” as the X-back harness. See options to add long distance padding or reflective strips.

### 1" Webbing

FN (super plush), FF (polar fleece), FP (neoprene).....	\$41.00
FS (sheepskin) <b>Custom—Not Returnable</b> .....	\$48.00
WP Super Plush over Neoprene .....	\$50.00
WPS Sheepskin over Neoprene <b>Custom-Not Returnable</b> .....	\$57.00

### 1-1/2" Webbing available in Blue or Black only. 1-1/2" Webbing harnesses are custom only and may not be returned.

FN1.5 (super plush), FF1.5 (polar fleece), FP1.5 (neoprene) .....	\$52.00
FS1.5 (sheepskin) .....	\$59.00
WP1.5 Super Plush over Neoprene.....	\$62.00
WPS1.5 Sheepskin over Neoprene .....	\$69.00

### Freight/Cart Harness

To use your Freight or Weight Pull harness with a cart that has shafts, add a cinch and cinch loop from the harness options.

### Competition Weight Pull Harness

**This harness is a custom harness regardless of size and cannot be exchanged or returned - be sure your measurements are correct!!!**

This harness is designed for weight pull competition and features 2" webbing (black only) on the neck and breast-plate, 1" webbing elsewhere, and sheepskin over neoprene padding. It is NOT recommended for dogs under 50 lbs.

DWP .....	\$112.00
-----------	----------

### Standard Sizes for Freight Style and Yukon Harnesses

18" neck x 23" rear	20" neck x 26" rear	22" neck x 28" rear	24" neck x 30" rear
26" neck x 34" rear	28" neck x 35" rear	30" neck x 36" rear	32" neck x 38" rear

Standard Sizes for Freight Style Harnesses may be returned for exchange or credit.

### OPTIONS for harnesses (options make a harness custom and not returnable)

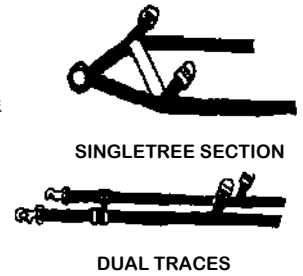

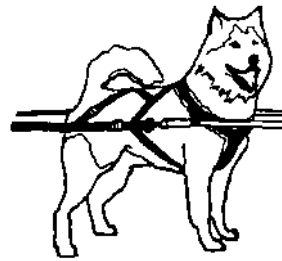

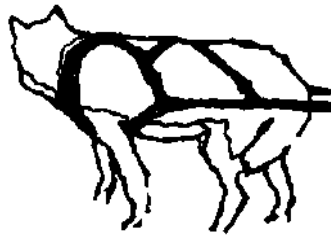

OP-Refl Reflective strips .....	add \$8.00
OP-D D-ring hitch in place of rope tie on X-back and Recreation .....	add \$0.50
OP-Stitched down or limited slip (X-back only) .....	add \$1.00
Op-color coded rope ties X-back and Recreation (green, black, red, brown, yellow, tan, blue, silver) .....	add \$1.00
OP-Cinch1 Cinch 1" sewn to harness .....	add \$5.00
OP-Cinch1A Cinch 1" web with shaft loops for carting .....	add \$5.00
OP-Cinch2 Cinch 2" web with shaft loops for carting .....	add \$6.00
OP-CinchLp Loop for cinch sewn on harness to hold cinches .....	add \$1.00
Extended padding	
OP-LDN1, LDF1, LDP1—6" over shoulders, 6" up the flank .....	add \$8.00
OP-LDN2, LDF2, LDP2—all the way down the flank to the last seam .....	add \$8.00

**CUSTOM SIZES ARE NOT RETURNABLE!!! MAKE SURE YOUR MEASUREMENTS ARE CORRECT!!!**

# HARNESSES

## Yukon

In deep snow and narrow trail, hitching the team single file is often the only way to go. Trace height is controlled by adjustable x-back straps at the rear, and by anti-tangle loops sewn into the collar. The dual traces are adjustable for dog separations up to five feet. A spreader bar may be installed at the rear support joint for even more control.

The Yukon Harness is the first “convertible” harness—the dual traces can be replaced by a singletree rear section in just minutes, converting the Yukon Harness into a traditional freight harness. This harness is completely adjustable for length as well as hitch height. It’s the same design as our freight harness, but allows you to adjust the harness precisely for maximum pulling power. **All Yukon harnesses are made to order. Please be sure that this is the style harness you want and the size you order is the correct size. These harnesses are custom and may NOT be returned.**

**Yukon Harness-combination** (Includes both dual traces and singletree section)

YN (super plush), YF (polar fleece), or YP (neoprene) **Custom-Not Returnable** ..... \$56.00  
 YS (sheepskin) **Custom-Not Returnable** ..... \$63.00

**Yukon Harness-dual trace only**

YTN (super plush), YTF (polar fleece), or YTP (neoprene) **Custom-Not Returnable** ..... \$48.00  
 YTS (sheepskin) **Custom-Not Returnable** ..... \$55.00

**Yukon Harness-singletree only**

YSN (super plush), YSF (polar fleece), or YSP (neoprene) **Custom-Not Returnable** ..... \$44.00  
 YSS (sheepskin) **Custom-Not Returnable** ..... \$51.00

**Options Yukon Harness**

TR Dual Traces separately ..... \$22.00  
 ST Singletree separately ..... \$11.00

## TRACKING / WALKING

### ADJUSTABLE TRACKING

This tracking and road work harness is adjustable within the following range of sizes. Harness neck should be adjusted so the shoulder pad fits firmly at the base of the dog’s neck while the padded D-ring is on the dog’s breastbone. The cinch may be adjusted forward or back by sliding through the bottom center strap. Once adjusted, the harness will stay in this position until changed. Side release snaps on both sides of the cinch make it slip on easily. Neoprene padding under the d-rings, side release snaps, and adjustment buckles on the shoulders to protect the dog.

AT Tracking harness ..... \$35.00  
 ATEP Tracking harness ..... \$45.00  
 (extended neoprene pad 6” up neck and between the forelegs)

### GREYHOUND HARNESS

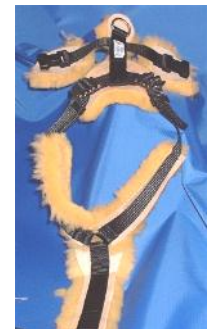

This adjustable tracking road work, walking harness is padded with sheepskin on all pressure points, under snaps, 6” up neck and between legs. This harness is specifically designed for dogs with sensitive skin.

ATES Tracking harness ..... \$50.00

### WATERSPORT

This modified tracking harness has plastic double bar buckles in place of steel and neoprene padding 6” up the neck and between the legs. It uses a contrasting bright color of webbing on the strip down the back to make the dog easier to see in the water.

WS Watersport harness ..... \$45.00

**Sizes for adjustable harnesses**—1” webbing for all but XXS or XS. XX-SMALL-5/8” webbing (call for color selection) (under 20 lbs), X-SMALL-3/4” webbing (dogs 20 - 40 lbs), SMALL (under 40 lbs), MEDIUM (40-100 lbs) , LARGE (100+ lbs) , XLARGE (125+ lbs), XXLARGE (150+ lbs)

### FITTED TRACKING HARNESS—Custom, not returnable

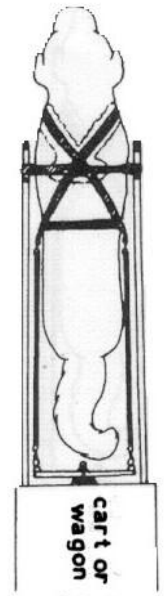

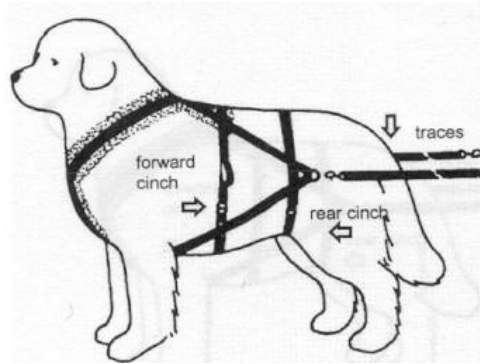

The fitted tracking harness is for search and rescue or hard pulling tracking dogs. This harness has a fitted neck and breastplate just like our sledging harnesses. The padding is sewn all the way around the neck and down the breastplate. Neoprene padding is used under the side release snaps and d-ring to protect the dog.

TN (super plush), TF (polar fleece), TP (neoprene) ..... \$25.00  
 TS (sheepskin) ..... \$32.00

# Harnesses

## SIWASH CART HARNESS

Sketches are from the Newfoundland Draft Work by Consie Powell  
Photo is of Houseoftervs Signed Original, CD, CGN, Belgian Tervuren, owned by Tracy Riley

This harness, developed by Consie and Roger Powell, is for use primarily with a wagon, cart or travois, but can also be used with a sled or toboggan. This harness features the same neck design as our sledding harnesses to allow the dog free movement. The extremely adjustable forward cinch (girth) has loops for shafts. The rear cinch (girth) (use optional) helps hold the D-rings and side straps in place as well as keeping the harness in place when the cart pushes up against it. Both cinches (girths) fasten with Delrin side release snaps. **Adjustable traces are included.** Side release snaps on shaft loops to allow dog to be quickly disconnected from cart.

- SCHN (super plush), SCHF (polar fleece), SCHP (neoprene) Includes 1 set traces ..... \$64.00
- SCHS (sheepskin) **Custom-Not Returnable** Includes 1 set traces ..... \$71.00
- SCHAP Puppy Harness 3/4" web, no padding (not pictured)** (Includes 1 set traces) ..... \$64.00

- SCHTR Set / 2 traces (extra traces-1 set comes with harness) ..... \$30.00
- SCHST Singletree ..... \$30.00

## SIWASH CART HARNESS—WILCZEK STYLE

This variation of our tried and true Siwash Cart Harness was developed in conjunction with Bill and Barbie Wilczek of Wilczek Woodworks ([www.wilczekwoodworks.com](http://www.wilczekwoodworks.com)). Bill and Barbie did much of the testing on the design changes themselves and arranged to have additional people give this modified style further testing. The changes in this harness are shown in the photos. The forward cinch (girth) is attached to 2 side release snaps sewn into place about 2-1/2" from the top of the neck. The snaps have neoprene padding under them and the neck padding is extended to where the webbing is sewn. This change allows the girth to completely drop off when the snaps are released while still allowing a snug fit of the shaft loops. This arrangement also helps greatly when using the dogs as a team with a single center shaft. The girth resists slipping sideways with the weight just on one side of the dog. The second change allows the d-ring to be adjusted in two directions—raising the d-ring up the flank or moving towards the head or tail of the dog. This allows you to "fine-tune" the fit of the harness. This harness will come with a Wilczek label and is available in the same sizes and colors as the regular Siwash.

- WSCHN (super plush), WSCHF (polar fleece), WSCHP (neoprene) Includes 1 set traces ..... \$69.00
- WSCHS (sheepskin) **Custom-Not Returnable** Includes 1 set traces ..... \$76.00

## WILCZEK BREECHING STRAP

Bill and Barbie Wilczek provided the original information needed for the design and provided the testing of this much requested breeching strap.

- SCHBSN (super plush), SCHBSF (polar fleece), SCHBSP (neoprene) ..... \$34.00

Standard neck sizes for both Siwash Cart Harnesses are in 1" increments from 18" to 32". Harnesses under 18" and over 32" are custom.

**ALL HARNESSES ON THIS PAGE ARE MADE IN WASHINGTON**

## Measuring Dogs

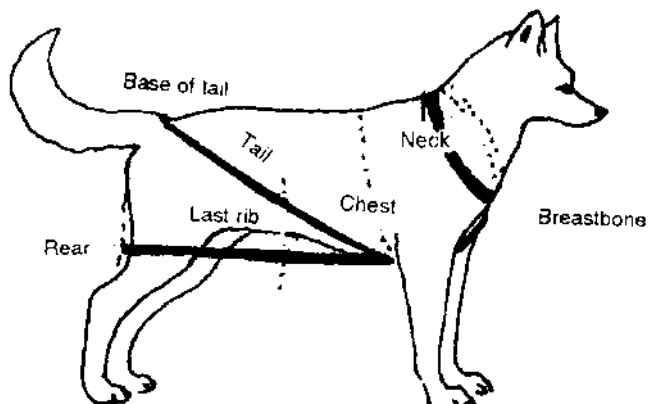

**Neck (all harnesses)** - Measure from just ahead of the withers at the base of the neck to the top of the breastbone, then double this measurement. Work the tape under the fur, pull it snug, but not stretched. Measure the dog, not the fur! Measure only one side of the dog then double the measurement. Wrapping the tape measure all the way around the neck may distort the measurement. **Neck fit is critical. When properly fitted, where the webbing crosses at the "Y" below the neck, the webbing should cross right on the breastbone. At the same time you are holding the webbing in place on the breastbone, check to see that the webbing in the "Y" at the top of the neck, crosses where the neck joins the withers (shoulder blades). If in doubt about fit call us.**

**Tail (x-back, recreation, split chest)**- Start tape at top of breastbone. Pass between front legs, then up around rib cage to base of tail. Lift tail to feel join. **Check fit of tail length by pulling on webbing to see if the webbing will come**

**to the base of the tail. Webbing should not come to the base of the tail unless there is tension against it. The more coat the dog has, the more tension is required.**

**Rib (siwash cart, freight, yukon)**-Start tape at top of breastbone, pass between front legs, then straight back to last rib.

**Rear (freight, yukon)**-Start tape at top of breastbone, pass between front legs, then to back of thigh (position of spreader bar)

## GENERAL HARNESS INFORMATION

### QUANTITY DISCOUNTS

Discounts apply to any assortment of harness sizes/styles.

6-12 harnesses..10% off 13-25 harnesses..15% off 26+ harnesses..20% off

**Neck Design**—The padded neck fits snugly around the dogs shoulders, distributing the force evenly. The basic design is hundreds of years old, but improved by modern materials. Harness neck size must fit correctly. Too large, and the harness will slip, rub, or interfere with movement; too small, and it will cut, bruise, or choke.

**Harness Care**—Do not store where continually wet. Try to prevent freezing. Do not dry over a fire or stove; they will shrink up to 10% or more. Wash in lukewarm or cold water and hang to drip dry. **DO NOT USE A CLOTHES DRYER!**

**Padding**-Harness padding does two things; it keeps the webbing from cutting or chafing your dog, and it provides some cushion to prevent bruising.

**TYPE N: Super Plush**-synthetic pile is furry nap with woven backing, good cushion, wears well, doesn't pill, machine washable.

**TYPE F: Polar Fleece** - PolarTec 300®, quick-drying Dacron polyester synthetic, good insulator because it holds a lot of air, resists water absorption, Machine washable.

**TYPE P: Neoprene**-closed-cell foam, with nylon sheathing, virtually indestructible padding that provides extra cushion for heavy pulling. Resists water absorption, resists freezing to approximately -30 even if wet. Machine washable.

**TYPE R: Ripstop over Closed Cell**-closed-cell foam, enclosed in ripstop nylon, Resists water absorption, resists freezing. Lighter than neoprene Machine washable.

**TYPE S: Sheepskin** padding offers extra cushion and protection—particularly when the temperature drops below zero. While not guaranteed machine-washable, the thick sheepskin wool retains enough lanolin and other oils to protect it, and to cause it to age by curling around the edge of the webbing. It wears extremely well. Particularly suitable for short-coated dogs. **SHEEPSKIN PADDED HARNESSSES ARE NOT RETURNABLE**

**Colors**—1" Medium weight harness webbing - red, royal, black, navy, turquoise, green, fl green, purple, burgundy, fl pink, fl orange, yellow, silver, teal

**Materials**—Webbing Quality 1-inch nylon web, tested to exceed 2000 lb force, with a special weave that spreads the load over the full width of the web.

**CORRECT HARNESS FIT IS CRITICAL!—If you have questions on measuring or fit, call us. Remember custom sizes are NOT returnable!!**

## Collars

### Klondike (KL)

Forms a complete circle around the neck—secure, but without chafing or choking the dog.

### Alaskan (AL)

Features our two-inch limited slip design. The collar normally lies loosely on the dog's neck; when pulled, it tightens just enough to hold the dog securely. This collar minimizes coat wear around the neck.

### Sierra (SI)

An adjustable circle collar with the ring sewn to lie flat against the dog's neck. This flat ring helps prevent snagging in heavy brush.

### Collar Sizes - Klondike, Alaskan, Sierra

Custom sizes by request.

**SMALL (7"- 12")** most puppies, small breeds

**MEDIUM (10"-16")** most sled dogs, hounds, up to 65#

**LARGE (14"-21")** larger dogs, Malamutes, Shepherds up to 100#

**X-LARGE (20"-32")** very large dogs, Saints, Newfs, 100#+

**XX-LARGE (21"-34")** Mastiffs, large Saints and Newfs, 150#+

*For dogs whose collars wear coat, consider the lined collars for more protection. For dogs who manage to loosen up the adjustment on their collars try the double slides. For dogs needing to be seen at night add reflective tape.*

### GENERAL COLLAR INFORMATION

Ours are the original adjustable collars designed for working dogs. They are the tough, humane, reliable, and inexpensive answer to kenneling, chaining, and working your dogs.

The adjustment design uses the full strength of the web—no holes to rip out, no weak hardware or moving parts, no loose ends for puppies to chew. Once set, the adjustment locks into the web, and stays until reset. The rings are easy to hang onto, even with gloves. The hardware is solid, one piece or welded. These collars are stronger than leather or chain, easy on coats, and skin, more secure than collars requiring buckles, and largely unaffected by extreme weather and hard work.

### COLLARS WITH SIDE RELEASE SNAPS SHOULD NOT BE USED FOR TIE-OUT.

**WEBBING COLORS:** Medium weight 1" & 3/4"-red, royal blue, pink, black, purple, green, burgundy, turquoise, teal 1" only navy, yellow, fl green, fl orange, silver, LIMITED TO STOCK ON HAND -1" only denim, bandana, hot tracks

UNLESS SPECIFIED COLLARS WILL COME IN MEDIUM WEIGHT WEBBING WITH 1-1/4" O-RINGS ON 1" WEBBING AND 1" O-RINGS ON 3/4" WEBBING. Small size collars come with d-rings.

**QUANTITY DISCOUNTS:** (any assortment of sizes/styles )

# GANGLINES

Typical 6 Dog Gangline (2 each GXS and 1 each Double Lead Tug)

**BEST MATERIALS!** All Nordkyn ganglines are made of hollow braid polyethylene, tougher and more flexible than polypropylene. They behave better in extreme cold, stretch less, and are more abrasion resistant. Heavy duty 3/4" brass snaps come on all tugs, with lighter 1/2" snaps on necklines. All snaps are easily replaced on the trail.

Center, shock, and snublines are 3/8" ; tuglines and necklines are 1/4" . (unless 3/16" rope is specifically requested)

**FEWER TANGLES!** our 12" necklines lead back at 45 degrees — just right to hold team dogs in position (8 inches from center line) when the lines are tight. There's little chance for hooking a leg over the neckline.

**MOVABLE SECTIONS!** Each tugline is removable on the trail, for immediate replacement. Each two-dog section within the gangline can also be easily removed, to change the number of dogs or replace damaged lines. Necklines may be replaced without using any tools.

**COLOR CODING!** The centerline comes in one color with neck and tuglines in a contrasting color. It really does save time in a tangle.

## GANGLINE SECTIONS

Complete gangline unit for two dogs; slips right into any Nordkyn gangline to add two dogs. or replace damaged parts.

**CARRY A SPARE!**

# SKIJORING/CANICROSS

Nordkyn offers a complete line of skijoring/canicross equipment. We recommend the X-back, Recreation, or Skijor harness for either skijoring or canicross. Please note that skijoring belts adjust from approximately 34" to 53". If you need a larger or smaller belt size, please note on your order. The belts fit on top of outdoor clothing. **HARNESSES ARE NOT INCLUDED IN THE VARIOUS KITS.** All belts are fully padded with neoprene.

**Book—Skijor with Your Dog- Carol Kaynor & Mari Hoe-Raitto..... \$15.95**

Comprehensive and practical guide for anyone interested in dogs, skiing and winter fun. 200 pages, 70+ photos/illustrations. Softcover.

 BC330P 330 with neoprene insert each ..... \$5.00  
 VEL2 Second strip of velcro each bootie..... \$3.00

CALL FOR QUOTE ON LARGE QUANTITIES OF BOOTIES.  
 Measure for booties by measuring width of dog's foot on a ruler.

**Dog Packs**—Packing with dogs is becoming increasingly popular. When choosing a pack, consider the type of work, size, weight of the load, and the physical ability of your dog. We offer 6 styles of packs from which to choose. All packs come with solid panels across the top rather than web straps that focus the load in just a few places. The weight is distributed evenly for the least strain and greatest capacity. These packs are designed, sewn, tested, and used by people who really care about dogs.

**WENAHA PACKS**

**Light Rider-LIGHT DUTY**

This is a light duty pack designed to hold your keys, dog snacks and doggie clean-up bags. The same high quality materials as all Wenaha packs. Reflective tape for high visibility.

**Light Rider (red, royal) ..... \$48.00**

**Jogger/Sport-LIGHT DUTY**

This is a light duty pack meant for “in-town” use. It has smaller panniers and an additional pocket on the front for carrying a water bottle. The mesh pocket on the outside of the main bag allows easy access. This pack has the same two part feature as the Explorer II. The under saddle works great as a tracking harness and has a loop to hook your leash. 500 denier nylon.

AKC Ch UCD Gr Ch Hi-Jinx Black Thunder CD CGC. Shiba Inu owned by Gisela Hamlin & Patricia Doescher. Photo courtesy of Lori Garza

**Jogger/Sport (red, royal) ..... \$50.00**

Ch R'Treks Millenium Edition (Emme). Alaskan Malamute

**Standard- HEAVY DUTY**

This pack has a permanently attached saddle with double cinches. It comes with D-rings for extra tie-down capacity and compression straps that hold the pack securely through the roughest brush and rock. The Standard is made with 500 denier cordura on the top and heavier ballistics material on the bottom for greater abrasion resistance. Delrin side-release snaps on the cinches are padded with neoprene.

**Standard (red, green) .....\$60.00**

Explorer II saddle

**Explorer II- HEAVY DUTY**

This pack comes with a saddle which mounts on the dog and separate saddlebags attached with velcro fasteners. It comes with D-rings for extra tie-down capacity and compression straps that hold the pack securely through the roughest brush and rock. The Explorer II is made with 500 denier cordura on the top and heavier ballistics material on the bottom for greater abrasion resistance. Saddle bags on the Explorer II look just like the Standard.

**Explorer II (red, green).....\$75.00**

**Explorer III-HEAVY DUTY**

New version of the Explorer II. Same great pack with the addition of reflective tape.

**Explorer III (red, green) .....\$85.00**

**Top Pouch**

Designed to strap on to the D-rings on top of the Standard or Explorer packs. It A mesh pocket is handy for your leash.

Sizes: Small (fits X-Sm, Sm, & Med) or Large (fits Med, & Lg) Approximate dimensions on large pouch 6”Wx2.5”deepx11”L.

**Top Pouch (red, green)..... \$18.00**

**WENAHA Standard and Explorer Sizes/Dimensions**

X-Small (20-40 lbs) back-4” W x 9” L , bags-3” W x 9” L x 7” H

Med. (70-100 lbs) back-6.5” Wx12.5” L, bags-4.5” W x 14” Lx9” H

Small (40-70 lbs) back-6” W x11” L, bags-4.5” W x12.5” Lx8.5” H

Large (100 lbs+) back-7.5” Wx14” L, bags-5” Wx15.5” Lx10” H

**WOLF PACKS—Banzai Explorer-HEAVY DUTY**

Contoured top section encourages an even load and provides a handy pocket. Lash patches for securing extra gear. Water resistant urethane coated Cordura Plus. Slanted front area reduces restriction and wear to elbows. Buckles cushioned with thick soft polar fleece pads. Reflective trim. Compression straps. Ballistic nylon brush guard panels.

**Banzai Explorer (red, royal) ..... \$80.00**

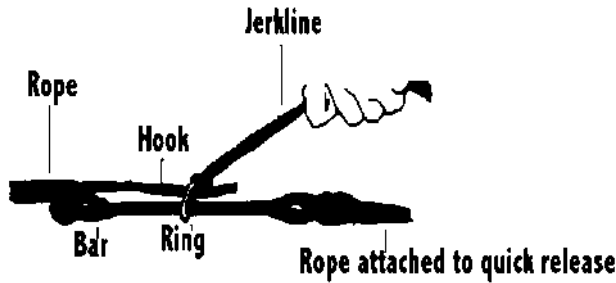

**WOLF PACK SIZES/DIMENSIONS**

Small (30-50 lbs.) 13”L x 6.5”H x 4.5” deep, Medium (50-85 lbs.) 15”L x 8.5”H x 5” deep ,

Large (85-120 lbs) 16”L x 9.75”H x 5.5” deep, XLarge (120+ lbs.) 17.5”L x 11.25”H x 6”

SHH.....	\$25.00
----------	---------

**MUSHERS SECRET-200 Grams \$22.50**

Mushers Secret is a dense, barrier wax that forms a breathable bond with your dog's paws. Developed in Canada for use with sledding dogs, it provides a tenacious protection even in the most extreme conditions and temperatures. Made from a blend of several food-grade, organic waxes, then refined according to the manufacturers special formulations, Musher's Secret is the safe, non-toxic way to protect your dog's paws. The semi-permeable shield is absorbed into the paws, allowing perspiration to escape through the toes.

**FOUR WHEELED WAGONS—TWO WHEELED CARTS**

**Competition Cart** .....\$380.00  
 Bed Size-33"Lx22"Wx9"D, Weight-44#, Load Capacity-600#. Removable shafts, wheels, and sides, solid maple and plywood construction. solid steel axle, 20" all-terrain pneumatic wheels. # Measuring Dogs

**Neck (all harnesses)** - Measure from just ahead of the withers at the base of the neck to the top of the breastbone, then double this measurement. Work the tape under the fur, pull it snug but not stretched. Measure the dog, not the fur! Measure only one side of the dog then double the measurement. Wrapping the tape measure all the way around the neck may distort the measurement.

*Neck fit is critical. When properly fitted, where the webbing crosses at the "Y" below the neck, the webbing should cross right on the breastbone. At the same time you are holding the webbing in place on the breastbone, check to see that the "Y" at the top of the neck, crosses where the neck joins the withers (shoulder blades). If in doubt about fit call us.*

## Tail (x-back, recreation, split chest)-

Start tape at top of breastbone. Pass between front legs, then up around rib cage to base of tail. Lift tail to feel join. *Check fit of tail length by pulling on webbing to see of the webbing will come to the base of the tail. Webbing should not come to the base of the tail unless there is tension against it. The more coast the dog has, the more tension is required.*

**Rib (siwash cart, freight, yukon)**-Start tape at top of breastbone, pass between front legs, then straight back to last rib.

**Rear (freight, yukon)**-Start tape at top of breastbone, pass between front legs, then to back of thigh (where the spreader bar goes).

We want our harnesses to fit right and work well. We urge you to measure your dog carefully, and send us individual measurements.

Neck	STANDARD SIZES	
	Tail	Weight
18	26	35-45 lb.
20	27	45-55 lb.
22	28	55-70 lb.
24	29	70-85 lb.
26	30	85-100 lb.
28	32+	100-115 lb.
30	34+	115-130 lb.

Standard sizes may be used as a guideline for your measurements.

## ORDERING AND SHIPPING INFORMATION

**PHONE HOURS** - We make every effort to answer the phones from 8:30AM to 4PM (Pacific Time), Monday through Friday. If you reach our voice mail instead of a person, PLEASE leave a message, we may just be on another line. The FAX machine is available 24 hours a day-7 days a week. Fax: 253-847-4108. Email: nordkyn@nordkyn.com

We accept **VISA, MASTERCARD, AMERICAN EXPRESS, DISCOVER, and PAYPAL**. Credit cards are processed in our office not through the website.

When placing an order without an order form, please remember to include your name, shipping address, phone number, and if using a charge card, your card number, expiration date and card id. Please allow adequate time for delivery. **If you need something in a rush, call for estimated delivery time.**

## ESTIMATED SHIPPING/HANDLING FEES

Orders will be shipped through **USPS** unless shipping through UPS or Fedex is requested-shipping cost will be greater.

Orders up to \$10.00 .....	\$3.50
\$10.01 to \$15.00 .....	\$6.50
\$15.01 to \$30.00 .....	\$8.50
\$30.01 to \$50.00 .....	\$10.50
\$50.01 to \$75.00 .....	\$12.00
over \$75.01 add.....	18%
2nd day air UPS or FEDEX .....	<b>ADD \$25.00</b>
Canada .....	<b>ADD \$10.00</b>
Overseas Air .....	50%

The recipients of orders shipped out of the country are responsible for all customs, duty, or taxes to be collected upon receipt.

Larger items (carts/wagons) will be shipped UPS and the estimated shipping is shown on page 13.

**IF PAYING BY CREDIT CARD WE WILL CHARGE THE CORRECT SHIPPING, IF PAYING BY PAYPAL WE WILL REFUND EXCESS SHIPPING CHARGES.**

## THE NORDKYN GUARANTEE

Should you find a manufacturing defect with any Nordkyn product, we'll repair, exchange, or replace it free. Webbing isn't puppy-proof, so we can't guarantee against chewed harnesses. Should "Jaws" strike without mercy, pack up the pieces and send them back. We'll patch it up at cost, plus shipping.

## EXCHANGES

We want our products to fit properly. If you need help determining a correct fit, call us and we will try to help you check the fit. If any Nordkyn standard size product isn't right, send it back to us in **NEW** (clean and free of hair) condition within ten days. Please do not write on the equipment before trying it on your dog. We'll gladly exchange the product. Exchanges of new products are free of charge, but you must include payment for return shipping. **PLEASE CALL US AND TELL US YOU ARE RETURNING AN ITEM PRIOR TO SENDING IT BACK.**

## SHOP HOURS

Shop hours are by appointment. We will be happy to measure your dog, or have you stop by to shop, but we ask that you call first for an appointment. You will need directions. Appointment times are flexible.

**TO OUR CUSTOMERS**

We've been working our Alaskan Malamutes, in harness, under a pack, and in the show ring, since our first Mal was purchased in 1973. We purchased our first Nordkyn equipment from Pat and Jim Mitchell in 1975. In 1983 we started to retail Nordkyn equipment for Pat at the Pacific Northwest dog events. When Pat decided to retire in 1985, she offered Nordkyn to us.

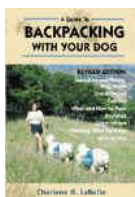

We are making every effort to continue with the same excellent quality materials and workmanship Nordkyn customers expect. We are continuing to expand our product line to meet the needs of our customers. Our guarantee and exchange policies have not changed.

If you a a problem or a question, please do not hesitate to call.

## EXCHANGES

We want our products to fit properly. If you need help determining a correct fit, call us and we will try to help you check the fit. If any Nordkyn standard size product isn't right, send it back to us in **NEW** (clean and free of hair) condition within ten days. Please do not write on the equipment before trying it on your dog. We'll gladly exchange the product. Exchanges of new products are free of charge, but you must include payment for return shipping. **PLEASE CALL US AND TELL US YOU ARE RETURNING AN ITEM PRIOR TO SENDING IT**

## ORDERING AND SHIPPING INFORMATION

**PHONE HOURS** - We make every effort to answer the phones from 8:30AM to 4PM (Pacific Time), Monday through Friday. If you reach our voice mail instead of a person, PLEASE leave a message, we may just be on another line. The FAX machine is available 24 hours a day-7 days a week. Fax: 253-847-4108. Email: nordkyn@nordkyn.com

We accept **VISA, MASTERCARD, AMERICAN EXPRESS, DISCOVER, and PAYPAL**. Credit cards are processed in our office not through the website.

When placing an order without an order form, please remember to include your name, shipping address, phone number, and if using a charge card, your card number, expiration date and card id. Please allow adequate time for delivery. **If you need something in a rush, call for estimated delivery time.**
